

Standards according to which the physical-technical laboratory of the Böllhoff Group is accredited and which are approved for flexibility.

The Böllhoff laboratory is permitted to carry out the standards listed here in different editions as accredited procedures, see the attachment to the accreditation certificate.

The release of changed standards in the Böllhoff laboratory, which belong to the flexible area of the Böllhoff laboratory, is carried out by the laboratory management.
The release date has been documented in the table since 2020.

Standard	Version
DIN 267-27 (since 30.8.2024)	2024-07
DIN 267-28 (since 12.3.2021)	2009-09
